Risk Being Assessed for: **Person** Name: **Israh Naeem**
 Risk Title: **Risk of Injury to Staff**

Risk/ Ref No.	Risk Description & Consequences	Risk Probability (L/M/H) 1,2,3,	Risk Impact (L/M/H) 1,2,3,	Risk Priority Red if >6+ Amber if 3,4 Green if 1,2	Risk Indicator Type : <i>Tolerate, Treat, Transfer, Terminate</i>	Mitigation Action	Risk Priority After Mitigation Red if >6+ Amber if 3,4 Green if 1,2	Owner	Next Review Date
1	Israh becomes tired and/or uncomfortable when standing up in a public place, leading to support most of her body weight into staff when holding hands or grabbing arms.	3	2	4	Treat	Staff is 2:1 at all times, lead member of staff will carry work phone with all necessary emergency contacts. All staff will be CALM trained. Staff should be aware of triggers which may increase Israh's tiredness - if she's been standing too much time or in a position that might hurt her back. Staff should grab hands or arms with Israh when required, but they need to make sure that she is not supporting all her body weight into them, otherwise their wrists or arms will end up hurting. Staff can communicate this to Israh verbally so she would understand.	4	All staff	20/11/20
