1	Israh has epilepsy and she can have several absence seizures during the day. This can cause her to blank out or stare into space for a few seconds. Then, there is a quick return to a normal level of alertness. This type of seizure usually doesn't lead to physical injury. She usually has them when she is inside the car.	3	2	6	Treat	Staff will follow epilepsy protocol as set out during epilepsy training. Staff should check on Israh regularly and if she is having a seizure make sure she is sat down. She would usually wear a helmet to avoid hurting her head. Her seizures should not last more than 5 minutes, staff should take the times. After the seizure finishes, Israh would tell staff she is ok. If seizure lasts for more than 5 minutes staff should phone 999 and on call to report it.	2	All staff	20/11/20
2	Israh can have an absence seizure in a public place while being standing. This can lead to her fainting or falling on the floor and hurting herself or somebody else.	2	3	6	Treat	Staff will follow epilepsy protocol as set out during epilepsy training. Staff should make sure she is sitting down or lying on the floor and make sure she doesn't hurt her head. She would usually wear a helmet. Her seizures should not last more than 5 minutes, staff should take the times. After the seizure is done, Israh would tell staff she is ok. Staff should help Israh to stand up again once she is sure and safe to do it so. If seizure lasts for more than 5 minutes staff should phone 999 and on call to report it. In case she hurts somebody else, staff should make sure that they are ok and provide them with Primecare phone number in case they want to contact the manager of the service.	3	All staff	20/11/20
