Autism Services

INDUCTION WORK BOOK

Introduction

To our front line staff,

Welcome to Primecare Health LTD. This handbook will give you guidance on your training and development requirements and opportunities, while you work within your service.

As you are aware there are certain qualifications you must have or work towards to work in social care and timescales that you must achieve these in. Some timescales are set by SSSC and some by our own policies.

This book will provide you with details of training requirements and where to find them as well as ongoing reflective accounts.

6 Month Probation

Reflective Account

01

This reflective summary is designed to support your continued growth and confidence in your role as an Autism Practitioner. As you progress beyond your first month, it's important to take time to consider how your knowledge, skills, and understanding are developing, and what areas you'd like to focus on next.

Reflective Account

02

As you complete your second month in the role, this reflection gives you space to look back on your recent experiences, recognise your ongoing progress, and begin setting your sights on deeper learning and more advanced skills.
